

## Chain, belt and roller conveyors

**A range of conveyor types for use throughout the hatchery.**

### **Chain, belt and roller conveyors**

Pas Reform's range of chain, belt and roller conveyors meet a variety of needs throughout the hatchery, from lightweight or linear systems, to customised configurations or the transport of heavy loads like stacks of chick boxes.

The conveyors incorporate an intermediate drive , to allow for longer conveyor lengths and multi-directional operation.

For light to heavy loads, including setter trays, hatcher baskets and chick boxes.
